*„We support you from the planning process through to installation and beyond.“*

André Trautner, Managing Director, has over 20 years of experience in equipping companies, schools and fire brigades.

## Consultancy and planning

We provide comprehensive advice and help with the planning of your project, including in person on site. Our team has the necessary expertise on topics such as fire protection and safety.

## Delivery and assembly

We are happy to have our specialised staff take care of the assembly. You don't need to worry about anything until your new steel furniture has been set up and aligned and the finished rooms have been handed over.

## Processing and service

You benefit from our uncomplicated service for retrofitting and repairs. We not only support our customers right up to delivery, but are also a reliable partner beyond that.

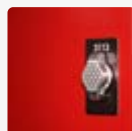

All LOCKEEL® products are made of high-quality sheet steel and designed for intensive use. Depending on the intended use, sheet thicknesses ranging from a cost-effective 0.5 mm to a particularly high

thick 1 mm possible. The steel cabinets are supplied ready for use and are prepared for extension with benches or sloping roofs.

## Adjustments

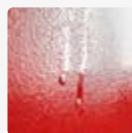

Our steel lockers can be further customised with additional shelves and partitions. For larger projects, we offer customised modifications through to special designs. Together we will find a solution for your requirements.

The lockers are fitted with a cylinder lock or rotary bolt as standard. All typical market locks can be fitted on request.

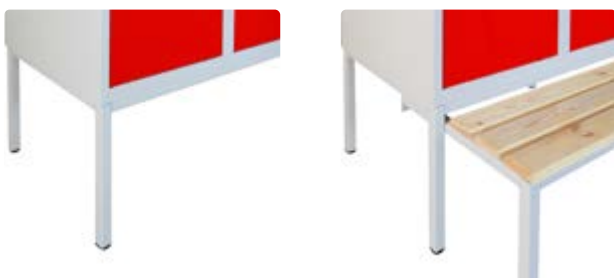

A selection of standard colours is included in the price. In principle, the carcass and doors can be coated in almost all RAL colours.

For locations with particularly high humidity, we recommend the optional galvanisation of the lockers. This makes them even more resistant to moisture.

## Extensions

Our changing room lockers and locker cabinets can be fitted with base frames. Choose from fixed or pull-out benches, a shoe rack or additional drawers. Seating surfaces are available with wooden or plastic slats, depending on the model.

Optional sloping roofs make it easier to clean the top of the cupboard and reduce the fire load. Hooks and mirrors are available as accessories to round off the equipment. If required, we can produce numbering or labelling for you.

PAWI Packaging, Singen Z-lockers with pitched roofs on benches underneath with shoe rack

St. Elisabeth-Hospital, Beckum  
Lockers for hospital staff

## Clothes locker

Clothes lockers offer plenty of storage space and are also very suitable for long items of clothing or bulky equipment. They are equipped with a shelf under which there is a clothes rail with sliding hooks. This area can optionally be divided with a partition wall.

**Shortened lockers** have a standard height of 145 cm and are ideal for use by children. Everything is at their eye level and easily accessible.

Dimensions H×W×D in cm

				
Compartment width 30 cm	180 × 30 × 50	180 × 60 × 50	180 × 90 × 50	180 × 120 × 50
Compartment width 40 cm	180 × 40 × 50	180 × 80 × 50	180 × 120 × 50	

VILSA-BRUNNEN, Bruchhausen-Vilsen  
Double lockers with shoe racks underneath

## Double Locker

The double locker has two compartments in which private clothing can be stored separately from work clothing. This allows you to realise clothing separation in accordance with the workplace directive, the so-called black/white separation for changing rooms. You can choose between both compartments with a storage compartment and clothes rail or one compartment with shelves (see illustration). The hinged doors are secured with a central lock.

Dimensions H×W×D in cm

Compartment width 30 cm	180 × 60 × 50	180 × 60 × 50
Compartment width 40 cm	180 × 80 × 50	180 × 80 × 50

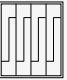

GERRY WEBER Logistikzentrum, Halle/Westfalen  
Z lockers on benches underneath for employees

## Z locker

The Z locker is a space-saving solution for storing as many compartments as possible in a limited space. The Z-shaped compartments allow long items of clothing to be stored without creasing in a small space. The compartments can be closed in pairs to separate work and private clothing. Each compartment has a clothes rail with movable hooks.

Dimensions H×W×D in cm

				
Compartment width 30 cm	180 × 30 × 50	180 × 60 × 50	180 × 90 × 50	180 × 120 × 50
Compartment width 40 cm	180 × 40 × 50	180 × 80 × 50	180 × 120 × 50	

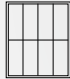

St. Elisabeth retirement and care centre, Nuremberg  
Changing room with wardrobe and laundry lockers for care staff

## Wardrobe locker

Wardrobe lockers are a space-saving solution for the changing area. Two compartments arranged one above the other provide sufficient storage space for jackets and bags. Each compartment is equipped with a clothes rail and sliding coat hooks. With doors that lock in the same direction, the wardrobe locker is also very good for the realisation of a black-and-white Suitable for separation.

Dimensions H×W×D in cm				
Compartment width 30cm	180×30×50	180×60×50	180×90×50	180×120×50
Compartment width 40cm	180×40×50	180×80×50	180×120×50	

IKEA Deutschland, Berlin-Tempelhof  
Lockers and wardrobes with code lock for customers

## Compartment cabinet

The compartment cabinet has three to six lockable compartments arranged one above the other. This means that many storage options can be offered even with a small footprint.

The different compartment widths and heights as well as colour combinations open up a wide range of variants. The compartment cabinets are also suitable as functional room dividers

Dimensions H×W×D in cm				
Number of compartments	3, 4, 5, 6	6, 8, 10, 12	9, 12, 15, 18	12, 16, 20, 24
Compartment width 30 cm	180 x 30 x 50	180 x 60 x 50	180 x 90 x 50	180 x 120 x 50
Compartment width 40 cm	180 x 40 x 50	180 x 80 x 50	180 x 120 x 50	

The compartment cupboard with 4, 8, 12 and 16 compartments is also available in a cupboard height of 145 cm.

## Safe deposit box

Vault lockers are suitable for the secure storage of documents or smaller items such as tablets. The lockers have ten separately lockable compartments per row. We also offer a version with insertion slots in the doors for use as a mail cabinet.

## Mini lockers

In security areas, libraries and other facilities, the carrying of mobile phones, keys or similar items is not desired or permitted. Our mini lockers offer a simple option for secure storage. Mounted on the wall, they are a space-saving alternative to standing cabinets and can be used in many locations.

Dimensions H×W×D in cm			
Number of compartments	10	20	30
Compartment width 30 cm	180 x 32,5 x 50	180 x 60 x 50	180 x 87,5 x 50
Compartment width 40 cm	180 x 42,5 x 50	180 x 80 x 50	180 x 117,5 x 50

The safe deposit box is also available with a cabinet depth of 30 cm.

Dimensions H×W×D in cm			
	57 x 40 x 20	57 x 80 x 20	91 x 60 x 20

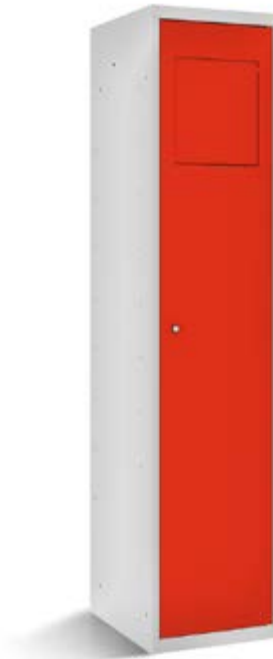

Dimensions given as an example; in 9 different versions available.

## Compartment cabinet with centre door

Our compartment lockers with a central door can be used in many areas. They simplify the distribution of clothing as well as the distribution of documents or work materials. The distribution cabinets have 11 or 22 compartments. Each user only has access to one compartment thanks to the separate locking system. The central door provides access to all compartments, which significantly optimises handling and the time required for filling or emptying.

## Laundry cupboard

The laundry collection cabinet simplifies the collection of textiles. It has a spacious flap. Employees, guests or customers can return borrowed or soiled laundry at any time. The laundry collection cabinet has a special device for hanging up standard laundry bags. The large door ensures easy removal of the laundry bag.

Dimensions H×W×D in cm

Width 150 cm	42×150×40	165×150×43	165×150×83

# VILSA-BRUNNEN

## Reference Project

» *„Our project was realised very quickly and exactly according to our ideas. Planning, delivery and installation went absolutely smoothly.“*

Dipl.-Ing. Marco Peters, Facility Manager/Projektmanager, VILSA-BRUNNEN

In 1908, a pure water spring was discovered in the small village of Bruchhausen-Vilsen. Today it is the headquarters of VILSA-BRUNNEN, a family business with around 450 employees. Around 500 million bottles of mineral water and soft drinks are bottled each year in the modern production facility.

As part of the modernisation, double lockers with a shoe rack underneath were purchased for the changing rooms. There are two spacious compartments behind the centrally lockable hinged doors. This creates a black and white separation of private items and work clothes that fully fulfils the health and safety guidelines.

- 280 double lockers with high-quality powder coating in desired colour
- Under-mounted base frames with shoe rack
- Benches with plastic mouldings

# LOCKING SYSTEMS

The lockers and lockers from LOCKEEL® can be equipped with different locking systems. The price already includes the following options Cylinder lock or

rotary bolt. Many other mechanical or electronic lock variants are available at an extra charge.

		Locking Medium	Users	Outdoor-suitability	Payment function	
Mechanical		Cylinder lock	key	firm	✓	✗
		Twist lock	Curtain lock	firm	✗	✗
		Coin deposit lock	Key + Coin	changing	✓	✗
		Coin cashier lock	Key + Coin	changing	✗	✓
		Mechanical combination lock	Desired-PIN	Fixed or alternating	✗	✗
Electronic		Electronic code lock	Desired-PIN	Fixed and alternating	✓	✗
		Transponder lock	Transponders (e.g. RFID, NFC, Bluetooth)	Fixed and alternating	✓	✓
		Software solution	Terminal, Smartphone	Fixed and alternating	✓	✓

The illustrations are examples and show only one possible variant in each case.

# COLOURS

We offer the high-quality and resistant powder coating in our standard colours at no extra charge.

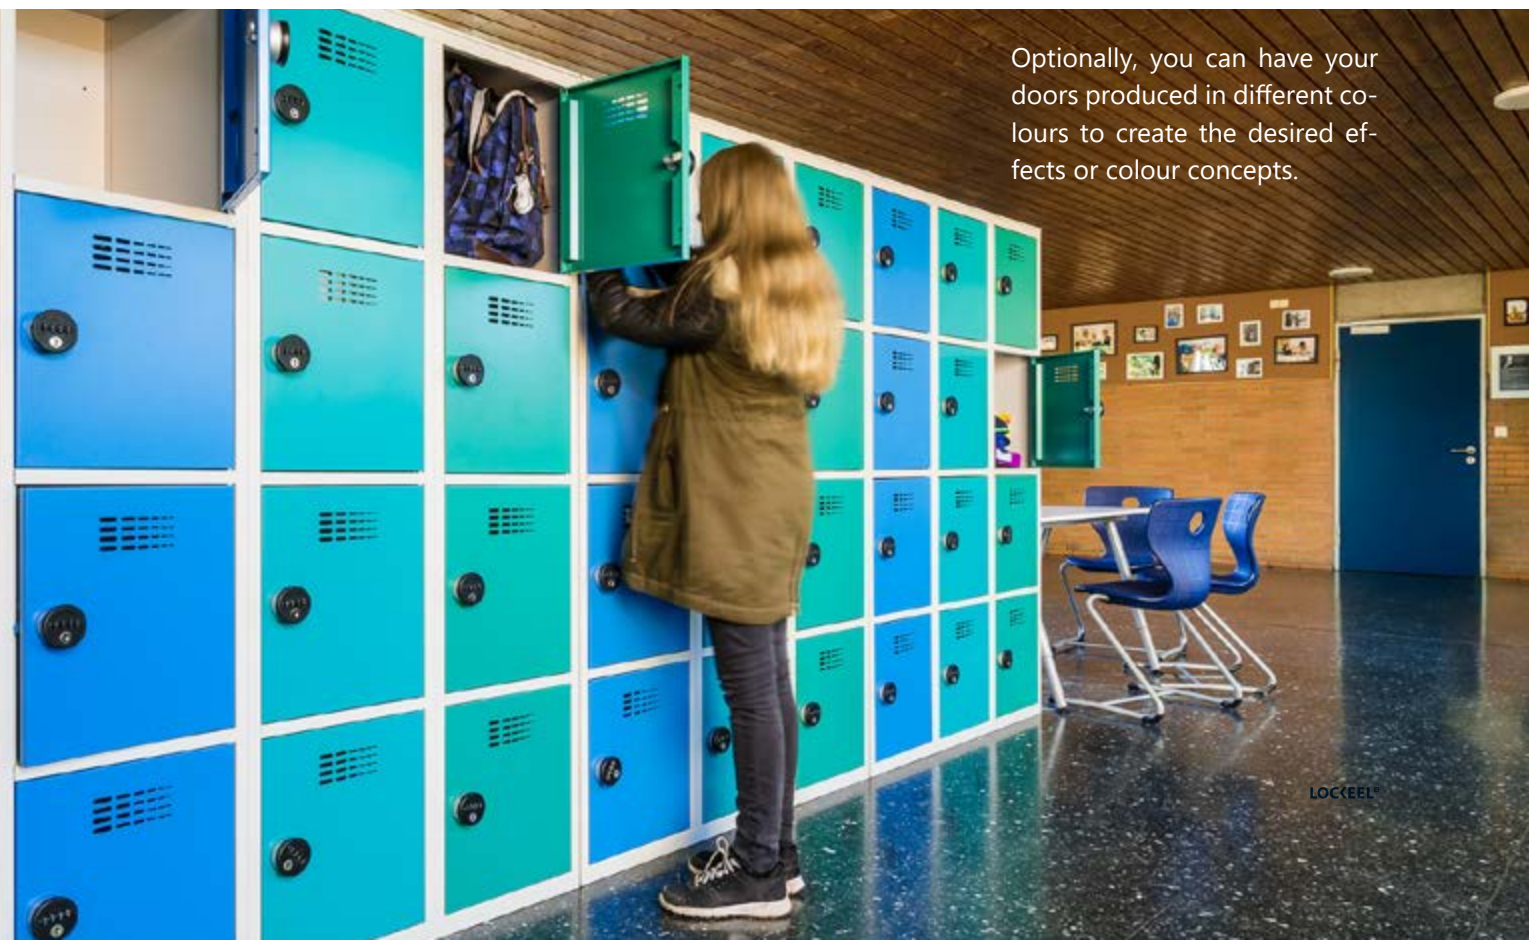

You can choose different colours for the carcass and doors.

Gentian blue 5010	Traffic red 3020	Wine red 3005	Mahogany 8016
Light blue 5012	Traffic yellow 1023	Pure orange 2004	Deep black 9005
Turquoise blue 5018	Mint turquoise 6033	Raseda green 6011	Anthracite grey 7016
Light grey 7035	Pebble grey 7032	Light ivory 1015	Pure white 9010

## Other RAL colours on request

In addition to our standard colours, we can produce carcasses and doors in almost any RAL colour on request.

Optionally, you can have your doors produced in different colours to create the desired effects or colour concepts.
